- ▶ ***Donating***
- ▶ ***Providing a Learning Lab***
- ▶ ***Being an exhibitor***

Central Florida Construction Career Days is a partnership among the Florida Transportation Builders Association and industry partners, the Federal Highway Administration, and the Florida Department of Transportation in conjunction with Brevard, Orange, Osceola, Seminole, Volusia, Lake, Sumter, and Marion County high schools. This fun and interactive event introduces students to the employment opportunities available for high school and college graduates in the transportation construction industry. The students receive a free lunch, t-shirt, and industry information. Free transportation is provided for the students and teachers/chaperones.

2023 Central Florida Construction Career Days
February 2–3, 2023
Orlando's Central Florida Fairgrounds

Volunteering

We need approximately 250 volunteers per day to work the 2023 Central Florida Construction Career Days event. We are expecting approximately 2,000 high school juniors and seniors over two days.

You can be a small group guide with a teacher or chaperone, greet buses and orient students, or hand out student goody bags and lunches.

If you are interested in volunteering, please contact Lauren Pearson at 321-257-7246 or lauren.pearson@dot.state.fl.us.

Donating

Central Florida Construction Career Days, Inc., is a public charity with 501(c)(3) designation.

Any donations, large or small, such as water, gift certificates, discount coupons, admission tickets, promotional merchandise, etc., can be used as prizes for student participation or for the “goody bags” distributed to the approximately 2,000 students throughout the event. To make your donation, visit ccdf.org/get-involved-central-florida/.

Providing a Learning Lab

Students experience Learning Labs where they participate in hands-on demonstrations in all areas of the transportation construction industry, including construction, materials, traffic operations, survey, structures, and more. We are also looking for new Learning Lab ideas.

If your company is interested in providing a Learning Lab, please contact Cody Williquette at 407-982-7275 or cwilliquette@elipsisec.com, or Baker Hightower at 407-982-7275 or bhightower@elipsisec.com.

Being an Exhibitor

Students also visit exhibits where they talk to company representatives and operate heavy equipment.

If your company is interested in becoming an exhibitor, please contact Louis Bramblett at 407-312-8326 or BramblettL@etminc.com, or Victoria Boston at 407-575-3286 or vboston@rkk.com.
